Value indices of new orders in manufacturing

gross series

	JULY 2019 in % compared to:		1.I-31.VII.2019/ 1.I-31.VII.2018 -%-
	JUNE 2019	JULY 2018	
Manufacturing working on orders – total	102.5	107.3	105.8
- by main industrial groupings:			
Intermediate goods	107.9	105.6	103.5
Capital goods	99.3	108.0	107.0
Consumer durables	100.9	120.8	110.6
Consumer non-durables	107.5	104.3	103.5

The data of the table in xls format

The 1.I-31.VII.2019 period compared to the 1.I-31.VII.2018 period

In the 1.I-31.VII.2019 period, the new orders in manufacturing overall increased by 5.8% compared to the 1.I-31.VII.2018 period due to the rises recorded for consumer durables (+10.6%), capital goods (+7.0%), intermediate goods (+3.5%) and consumer non-durables (+3.5%).

Further information:

- ✓ The industrial new orders represent the value of the contracts concluded between a producer and a customer during the reference month and involve the deliveries of goods and services that have to be made by the producer, regardless of the period in which these goods/services are to be supplied. The product-related taxes (such as the VAT), the rebates and the discounts, when granted on a contractual basis, are not included.
- ✓ The (nominal) value indices of new orders are Laspeyres-type indices and measure their evolution (in current prices) overall, by CANE Rev. 2 divisions (13, 14, 17, 20, 21, 24÷30), as well as by main industrial groupings.

For an accurate interpretation of the indicators, please see the [Methodological explanations attached to the press release on the homepage](#).

For more information, see the TEMPO online database of the NIS (the data for July 2019 will be available as of 17 September 2019), the Industry Statistical Bulletin (date of issue 19 September 2019) and the Monthly Statistical Bulletin (date of issue 25 September 2019).

The next press release will be issued on Friday, 11 October 2019.
